

## BLACK AND GALVANIZED PLATES

**Heavy plates, HR steel in coils, blanks, shaped cut (black and HDG)**

Products we are offering comes from good established reputed manufacturers located in EU and CIS contries.

- **Heavy plates:**

**Application:** in the mining industry (eg. mining machinery and equipment), machinery (eg. construction equipment, agricultural, lifting), construction, shipbuilding (ships, port machinery and equipment).

**Dimensions:**

Thickness: 12-100mm;

Width: 2 000 mm and length up to 12 000 mm.

**Production norms:** EN 10029, PN-H-92200, PN-H-92147, PN-H-92120.

**Steel grades:** from construction steel of standard quality (S235), higher strength (S355, S420), boiler (P265, 16Mo3) and shipbuilding (A, B).

- **Hot rolled steel in coils and sheets:**

**Dimensions:**

Thickness: 1.5 – 12 mm;

Width: 1000 – 1500 mm;

Coil ID: 850 +/- 50 mm;

Coil OD: 1180 – 2200 mm;

Coil weight: max 17 t;

Tolerances acc. EN 10051.

**Norm:** EN 10025-2:2004.

**Grades:** S235JR+N, S235JR+AR, S355J2+N.

CE marking, Quality Certificate EN 10204-3.1

- **Cold rolled steel in coils and sheets:**

**Dimensions:**

Grades: 08Kp, DC01;

Thickness: 0.5 - 3.5 mm;

Width: 1000; 1250; 1500 mm;

Length: 1000 - 6000 mm;

Bundle weight: 4 t.

**Surface:** oiled

**Tolerances:** acc. EN 10131

- **Hot dip galvanized steel in coils:**

**Dimensions:**

Thickness: 0,4- 3,0mm;

Width: 100-1650mm;

Coil ID: 508mm;

Coil weight: 7-10T.

**Grade:** DX51D +Z

**Norm:** EN 10327, EN 10143

**Surface:** NAC, zinc coated from Z100 to Z275, surface protection

- **Shaped cut steel:**

We offer cutting elements from black steel plates S235, S355 in a full range of thicknesses.

We supply various types of construction prefabricates / elements of any geometrical shape according to our client's documentation (electronic or traditional).

We guarantee the dimensional accuracy of finished components.

***Additional service:***

- \* edge chamfering,
- \* surface cleaning,
- \* priming,
- \* sawing service (eg. belts, stripes).

**In addition, we offer:**

- \* the possibility of delivering strict formats according to our customer’s requirements,
- \* immediate delivery from our own warehouses or directly from new production,
- \* ability to deliver finished cut parts from plates according to our customer’s requirements (eg. belts, shapes),
- \* additional certification of the goods with the receipt of the international classification from a range of societies (eg. TDT, DNV, GL) and a CE sign,
- \* the possibility to order products with additional qualitative testing (eg. SEP 1390, samples Z, ultrasound tests).
